# Four Ways to Gain Greater Value from your Business Data

**Even with the power of Unit4 Financials at your fingertips, there are many processes around the system that can benefit from greater automation and streamlining.**

From risk planning to consolidation, discover the modules and add-ons that can drive efficiency in your finance function.

## Unit4 Financials XL

**Unit4 Financials XL is a user-friendly tool that combines the power and control of Unit4 Financials with the familiarity and convenience of Microsoft Excel.**

It enables you to output, work with, display, share and even input your data, more easily and more reliably. It gives you reporting that harnesses the

advantages of spreadsheets but overcomes their usual weaknesses and complexities. It feeds your reports with real-time data and makes them far easier to maintain and share.

Unit 4 Financials XL is one of a group of complementary applications that help you make the most of the Microsoft Excel skills your Accounting team already has – creating significant time and money savings for your whole organisation.

## FP&A (Prevero)

**From Sales and Risk Planning to Profitability Analysis, finance teams need the right data to help them make informed decisions.**

That means providing them with the tools to delve into the detail that drives your business.

Unit4 Prevero gives you the integrated software you need for sophisticated planning, analysis and reporting. Take full control of your business

planning and forecasting processes with this intuitive Corporate Performance Management (CPM) platform. Featuring integrated Business Intelligence (BI), it also gives you advanced analytical and reporting capabilities – all in a single solution.

## FPM (Financial Performance Management)

**Our Unit4 Financial Performance Management (FPM) suite combines powerful, easy-to-use solutions for group consolidation and cash planning with highly effective tools for financial performance reporting and analysis.**

It allows you to easily cope with inputs from any number of ERP, finance and other business systems - including Unit4 Financials. It also enables you to

adapt quickly to new organisational structures, additional source systems, compliance regimes or GAAP reporting requirements:

- ✓ **Easily manage input, reconciliation & control**
- ✓ **Consolidate complex accounts**
- ✓ **Deliver improved reporting & analysis**

## Avalara TAX Reporting

**Making Tax Digital regulations require the implementation of an end-to-end digital journey for VAT returns, with no manual interventions. Firms also need to keep up with the latest rule changes in a shifting regulatory environment.**

To make the switch to digital simple, Avalara and Unit4 have partnered to integrate Unit4 Financials and Avalara's VAT Reporting - providing you with a solution to automate all forms of VAT compliance in the UK, Europe and more than 50 countries around the world.
