

Millennium Professional Services Aptitude Software Practice

Since 2008, regulatory compliance has assumed far greater importance within the Financial Services sector with organisations having to grapple with new legislation such as Sarbanes Oxley, MiFID, Basel, Dodd Frank as well as changes in IFRS reporting.

Aptitude Professional Services

Our knowledgeable and highly skilled team works closely with you to advise, design, and integrate your Aptitude solution, creating a thriving digital culture, automating your processes, and unlocking the power of your data. Our proven approach provides a framework and platform to build and sustain a world-class enterprise financial architecture for your organisation.

Discover

We analyse and identify the problem and requirements, make the case for change, and create a roadmap to increase predictability ensuring success. Our delivery team enable you to achieve compliance efficiently, adhering to market best practices and standards, reducing project costs and risks, while mitigating and resolving issues found in client's architecture.

Design

We design processes and strive to find the right solutions required to meet your commercial needs. Being at the forefront of innovation allows us to address issues concerning broader challenges. This creates lasting value, navigating risk and regulatory complexity, to understanding business functions and putting the right strategy in place to then deliver them.

Deliver

We combine finance and technology expertise to help and support implementation of your application, from documentation to development, and deployment to post go-live support. Our aim is to implement an efficient delivery method that encourages simplification and standardisation of processes and automated controls, that is highly performance, transparent and agile. This will help improve your systems capabilities and connect your data.

Millennium Consulting supports clients with digital and finance transformation and enterprise architecture design. With over 27 years global operating experience, we provide strategic advice and innovative solutions that enables clients to achieve their commercial goals.

We believe in exploiting the opportunities often overlooked when organisations regard regulatory adherence as the sole goal of compliance. Regulatory compliance project activity can offer a once in a generation opportunity to exploit the benefits and fundamentally change how organisations operate.

Close collaboration underpins our client relations and we are experts in advising, designing, implementing and supporting regulatory solutions in close partnership with the world's leading Insurance Companies.
